

EXPO PAVILIONS

Feature your products and services in one of our specialty pavilions.

NATURAL & ORGANIC

Be a part of the most popular pavilion at the 2017 Food & Nutrition Conference & Expo™ – the Natural & Organic

pavilion. Highlight your products along with other specialty and natural grocery produce, dry snacks, beverages, and leading organic producers and manufacturers.

HEALTHY GUT

Probiotics, prebiotics, functional beverages and nutritional supplements are becoming more popular each year due to increased focus on gut

health. Companies providing solutions in decreasing inflammation and improving overall gut health are ideal exhibitors for this pavilion.

TECHNOLOGY FOR PRACTICE

Healthcare is becoming virtual and dietetics is part of this transformation. FNCE® attendees are looking

for high tech resources they can use with clients and patients. This pavilion is ideal for integrative approaches to nutrition technology and for companies who sell EMR/ EHR solutions, informatics, telehealth solutions, mobile apps, social media and software/ hardware tools needed for effective practice.

WELLNESS & PREVENTION

FNCE® attendees consult clients on how to stay healthy and active. They are constantly on the search for advances and

trends in exercise, sports nutrition, health coaching and genetic factors essential for health promotion and disease prevention.

ADDITIONAL WAYS TO ENGAGE WITH ATTENDEES

Get your company noticed and connect with attendees beyond your booth. Whether you are looking to share new research, food and nutrition information, new products, recipes or breaking news, there are a variety of FNCE® Exhibitor opportunities that offer meaningful and targeted attendee engagement.
